

Seamless workflow in construction

With PANASONIC TOUGHBOOK

This is why

Part of the Solution

Makin' 3D have chosen tablets from Panasonic TOUGHBOOK as part of the machine control solutions.

And the reasons are many.

[Watch the short video](#)

[Contact us for more information](#)

- **Ruggedness**

Ready for work in all environments, high and low temperatures, resistant to drops, shocks, vibrations and easy to clean.

- **LCD display**

When rotating between inside and outside, night and day, good and bad weather, your screen needs to respond seamlessly. Outdoor readable LCD display and responsive to finger, glove and pen even in wet conditions.

- **Long battery time**

Easy to change batteries when in the field, if necessary.

- **Vehicle mounting**

Secured, fit-for-purpose and including necessary business ports. Easy to undock the tablet for perfect mobility.

- **Excellent connectivity**

Connection even in remote areas with seamless dataflow.

Makin' 3D + Panasonic TOUGHBOOK
= the perfect match
